

CRAFT NAME	Hovercraft Making & Racing
EQUIPMENT & QUANTITY 	<u>Per Teenager:</u> An old CD/DVD A balloon Top of a Sports bottle (with a push/pull opening) Hot glue gun /super glue
ENGLISH LANGUAGE ACTIVITY (See separate document)	Play Activity 6 - Vocabulary Cubes Aim: To broaden students knowledge of craft vocabulary and to use within different contexts

CRAFT METHOD	
<ul style="list-style-type: none"> • Make sure the sports drink cap is in the closed position (pushed down). Use a hot glue gun, superglue, or gorilla glue to secure the sports drink cap onto the center of the CD/DVD. • Make sure you create an airtight seal. • Blow up your balloon and twist the end of it so that no air escapes. • With the balloon twisted shut, stretch the neck of the balloon over the top of the sport's drink cap. • Slowly release the twist on the balloon, carefully pull the sports drink cap into the "open" position, and gently flick the CD on a flat surface. Watch what happens! • The balloon will deflate after several seconds. Once it is deflated, remove the balloon and repeat steps 2-4!
